

**Australian College of Mental Health Nurses Conference
Conference Program 2012**

(Subject to change)

Tuesday 2nd October 2012

Pre-Conference Workshop

VENUE: Mavie Room, Vibe Hotel, Darwin Waterfront

1:00 - 1:30pm	Registration
1:30 - 3:00pm	<p>Mary O'Hagan International Mental Health Consultant</p> <p><i>'A recovery approach to risk'</i></p> <p>The recovery approach amplifies the voice and personal meaning of people with lived experience but this has yet to penetrate the risk thinking in mental health services. Recovery requires us to take a much broader view of risk – one that is concerned with the subjective experience and life chances of people with mental distress. It also requires us to focus more on strengths and opportunities which are the flipside of risk. This workshop is interactive and uses real life situations to discuss this subject.</p>
